In total, Bank Indonesia had increased their benchmark rate by 225bps up to Jan 2023. The decision is consistent with the monetary policy stance of managing inflation under 3.0% this year and 2.5% in 2024. Rupiah weakened against USD by -1.64% from 15,237 at end of August 2023 to 15,487 at end of September 2023. The weakened of Rupiah was impacted by hawkish statement from Jerome Powell and many Fed official that stated the Fed still need hike rate until the Fed get assurance that inflationary path to inflation target of 2% without causing damage to US economy. Indonesia's trade balance recorded surplus amounting to USD +3,124mn in August 2023 vs previous month surplus USD +1,292mn in July 2023. The higher trade surplus was impacted by import fell deeper and export. Meanwhile, oil and gas trade balance still recorded deficit to USD -1,343mn in August 2023, which was lower than the deficit in July 2023 amounting to USD -1,905mn. Indonesia's official reserve assets position amassed USD 134.9 billion as of the end of September 2023, decrease from USD 137.1 billion as of August 2023. The decrease was impacted by the government's external debt repayments and the need for Rupiah stabilization.
